WHAT FACTORS INFLUENCED PERFORMANCE FOR THE PERIOD?

Growth-tilted U.S. large- and mid-cap stocks rose strongly during the reporting period. Companies in the technology sector, particularly those in the semiconductor industry, benefited from increased demand due to the rapid advancements in artificial intelligence (AI) technology, demand for specialized chips, and increased computing power. In the communication sector, media and entertainment stocks contributed, as the industry realized benefits of AI for advertising. The energy and health care sectors detracted modestly during the period.
