WHY INVEST IN STXD

Invest in companies with a long-term track record of growing dividends.

Unlock value via our commitment to shareholder primacy achieved through using our voice and vote to lead companies to focus on excellence.

Cost efficient: Active engagement with management teams and boards to create value, for low-cost index fee.

Core portfolio position: Use STXD as a core equity holding in your portfolio to seek long-term dividend growth, while better aligning proxy voting with client interests.

FUND DESCRIPTION

STXD is a passively managed exchange-traded fund (ETF) that seeks to provide exposure to U.S. corporations that have a five-year track record of growing dividends while maintaining a dividend growth rate greater than the benchmark.

The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when sold or redeemed, may be worth more or less than their original cost and current performance may be lower or higher than the performance quoted. Performance current to the most recent month-end can be obtained by calling 855-427-7360. Short term performance, in particular, is not a good indication of the fund's future performance, and an investment should not be made based solely on returns.

Data as of 6/30/24

Growth of \$10,000 Since November 10, 2022

Chart reflects growth of a hypothetical \$10,000 investment and assumes reinvestment of dividends and capital gains. **Past performance is not indicative of future results. Index performance may differ from fund performance. Indexes are not managed, and one cannot invest directly into an index**

Investors should consider the investment objectives, risks, charges and expenses carefully before investing. For a prospectus or summary prospectus with this and other information about the Fund, please call 855-427-7360 or visit our website at www.strivefunds.com. Read the prospectus or summary prospectus carefully before investing.

Important Risks

Investments involve risk. Principal loss is possible. **Equity Investing Risk.** An investment in the Fund involves risks similar to those of investing in any fund holding equity securities, such as market fluctuations, changes in interest rates and perceived trends in stock prices. The values of equity securities could decline generally or could underperform other investments. **Passive Investment Risk.** The Fund is not actively managed, and the Sub-Adviser will not sell any investments due to current or projected underperformance of the securities, industries or sector in which it invests, unless the investment is removed from the Index, sold in connection with a rebalancing of the Index as addressed in the Index methodology, or sold to comply with the Fund's investment limitations (for example, to maintain the Fund's tax status). The Fund will maintain investments until changes to its Index are triggered, which could cause the Fund's return to be lower than if the Fund employed an active strategy. **Tracking Error Risk.** As with all index funds, the performance of the Fund and its respective Index may differ for a variety of reasons. For example, the Fund incurs operating expenses and portfolio transaction costs not incurred by the Index. In addition, the Fund may not be fully invested in the securities of the Index at all times or may hold securities not included in the Index. **Index Calculation Risk.** The Index relies on various sources of information to assess the criteria of issuers included in the Index, including fundamental information that may be based on assumptions and estimates.

Shares of ETFs are bought and sold at market price (not NAV) and are not individually redeemed from the fund. Any applicable brokerage commissions will reduce returns.

The Strive ETFs are distributed by Quasar Distributors, LLC.

Glossary:

Bloomberg US 1000 Dividend Growth Total Return Index: Bloomberg LP ("Bloomberg") is the licensor of The Bloomberg US 1000 Dividend Growth Index (the "Index"). Bloomberg US 1000 Dividend Growth Total Return Index aims to track a subset of stocks in the Bloomberg US 1000 Growth Index which have increased their trailing full year dividend payment for five consecutive years and have a calculated five year dividend growth rate greater than the benchmark index.

Market Price: The current price at which shares are bought and sold. Market returns are based upon the last trade price.

NAV: The dollar value of a single share, based on the value of the underlying assets of the fund minus its liabilities, divided by the number of shares outstanding. Calculated at the end of each business day.

Not FDIC Insured. No Bank Guarantee. May Lose Value
